📍 No 5 cheif Charles Nduba Onyekwuluje close  
umunya, Anambra, 433104

## CAREER OBJECTIVE

Hard-working Software Engineering major (3.5 GPA) currently attending Babcock University. Aiming to leverage proven creative thinking, multitasking, and teamwork skills to successfully fill the Software Engineering Intern role at your company. Frequently praised as diligent by my peers, I can be relied upon to help your company achieve its goals. Aside from my immense passion for programming, I possess a profound affinity and intrigue for solving real life problems through Software Development, Machine Learning and Artificial Intelligence. As a self-taught programmer, my preferred programming languages are C# and Python. I have built several personal projects in these languages. I am well experienced in object-oriented programming; developing, testing and debugging code; designing interfaces. Also very familiar with both Windows and Linux Operating Systems. I learn and master new technologies quickly, successful working in both team and self-directed settings.
